

# IN 10 IDEAS MINUTES

10 ideas in 10 minutes is a simple but powerful productivity technique that can help you overcome creative blocks and generate new ideas. The idea is to set a timer for 10 minutes and brainstorm 10 ideas on a given topic or problem. It doesn't matter if the ideas are good or bad, the important thing is to get the juices flowing and come up with as many possibilities as you can. Once the timer is up, you can review your ideas and see if any of them have potential. The beauty of this exercise is that it forces you to think creatively and come up with ideas that you might not have otherwise considered. Give it a try - you might be surprised at what you come up with!
